

## **Dewesoft ~ Data Acquisition Systems**

Manufacturing easy-to-use versatile data acquisition turnkey systems. Dewesoft data acquisition systems are designed to be set up and operated by the most novice to the most experienced engineers and technicians. Our systems are configurable, expandable, and can work with any signal and sensor available.

## **DTS ~ Rugged/Mini Data Acquisition**

Specializing in miniature data logging and data streaming data acquisition systems. Supporting telemetry, flight test, and blast product testing. Perfect for unmanned on-board platform testing.

[www.dtsweb.com](http://www.dtsweb.com)

## **Texys**

Manufacturer of embedded sensors solutions. Multiple sensor technologies for complexed applications such as force, temperature, speed, current and inertia, both on-board and in laboratory, for all types of industries.

**not-available**

## **Endevco**

Manufacturer of highly reliable products for test and measurement applications, including solutions for shock, vibration, motion, pressure, and supportive instrumentation.

[www.endevco.com](http://www.endevco.com)

## **Flow Technology**

Provider of high accuracy flow metering devices that measure liquids and gases, offers an unmatched flow measurement resource, including over 50 years of experience solving the most difficult applications.

[www.ftimeters.com](http://www.ftimeters.com)

## **Kappa Optronics**

Provider of advanced camera and vision solutions for airborne and ground applications to include day, night, and rugged environments. Suitable for safety-critical applications.

[www.kappa-optronics.com](http://www.kappa-optronics.com)

## **On Time Networks ~ Rugged Ethernet Solutions**

An innovator for Rugged Ethernet solutions for Switches, Routers, and Timing Solutions for Ground, Air, and Defense Applications.

[www.ontimenet.com](http://www.ontimenet.com)

## **PCB Piezotronics**

Manufactures sensors used by design engineers and predictive maintenance professionals to test and measure vibration, pressure, force, acoustics, load, and shock in research and development as well as industrial applications.

[www.pcb.com](http://www.pcb.com)

## **PMC - STS**

Providing innovative measurement solutions developing transmitters and transducers for pressure, level, vacuum, and other measurements.

[www.pmc1.com](http://www.pmc1.com)

## **Rugged Science**

Manufacturer of mission-critical ultra-reliable computer hardware platforms developed for the toughest environments.

[www.ruggedscience.com](http://www.ruggedscience.com)

**DEFENSE & SPACE INC**

## **Safran ~ Flight Test and Ground Telemetry**

Offering end to end Airborne & Ground Telemetry, Flight Test Instrumentation: To include Encoders/Data Acquisition, Receivers, Best Source Selection, IRIG 106 Chapter 10, Chapter 7 Recording Systems, and Tracking Antennas.

[www.safran-group.com](http://www.safran-group.com)

## **Trenton Systems ~ Rugged High Performance Computers**

Dedicated to providing customers with a US-made computer solution. They craft custom computers that can face controlled extreme environments. Because they are designed and built here locally in the Southeast, they control their own bios giving the customer complete control over critical infrastructure and systems.

[www.trentonsystems.com](http://www.trentonsystems.com)

## **Tripp Lite**

Supplying Solutions for Power Distribution, Surge Protection, KVM Switches, Network Switches, and Enclosure Cooling.

[tripplite.eaton.com](http://tripplite.eaton.com)

## **uAvionix ~ Transponders and Transceivers**

Advanced avionic solutions developed for crewed and uncrewed aviation platforms. uAvionix manufactures the smallest AIM Certified, NATO approved transponders & transceivers, panel displays, and tail beacons.
